Welcome, as we come together for this sacred duty with love and humility for our world, let us remember as we walk this path to do so dispassionately, impersonally, without focusing on individuals, of who is right and who is wrong, we seek only to bring light and love and to be a conduit for our Hierarchy of Love.

And as the world struggles to find itself, let us remember that as we move forward into 2025 and beyond, much muck is raised to the surface of humanity to be cleansed, transmuted and healed. Let us come together hand in hand, soul to soul.

Let us now visualise a box, and in that box place all those things which are not needed at this time. All those concerns with our incarnation can be set aside for the sacred hour which we dedicate to our Hierarchy as Servants of Light.

So, together, let us walk the path of light and love and healing.

So as we join together in our sacred task, let us visualise our place within the New Group of World Servers, focusing the light and love directed to our world from Shambala via our Spiritual Hierarchy. Breathe in that light through the crown chakra; let it permeate your being.

Assembly of the Triangles

Let us begin to assemble the Triangles. T1, please step forward and create a Triangle of Light, Love and Power between you and visualise a golden triangle of living fire that burns not but ever heals, linking at your heart level and beginning to descend slowly to the earth.

Triangle Two please step forward; create a triangle one meter above T1, visualise your golden flaming Triangle beginning at your heart level and proceed towards the earth.

T3 step forward, creating your Triangle one meter above T1 and T2; see and feel this triangle of golden healing fire linking your hearts and beginning to move down towards the earth itself, connecting an entire, empowered ?? by its energy until it reaches the others and welds with them.

T4 step forward, creating your Triangle one meter above T1, T2 and T3. See and feel this triangle of living fire linking your hearts and beginning getting to move down to the earth as well until it reaches the others and welds with them, creating this radiant, golden-flaming 12-Star of light and love and power.

Above us and through us the vortex begins to form, linking Shambalic energies through the layers of infinity. And we remember our coworkers scattered throughout infinity, working with the one Light that we all serve.

And above the Twelve Formation, a point of light forms and glows and swells as the vortex of love descends through our formations as a conduit of love, power and healing. And before us, our world spinning as it does within our universe, shrouded in greyness, interspersed with the points of Light crying for assistance to transmute and heal the past; to visualise the present and prepare for the future. And as the great Beings of Light approach us, let us welcome them, and the Great Devas attend us. We, a point of Light within the ring-pass-not of the New Group of World Servers, do dedicate our service activity to the Lord of Love, whose undoubted presence is with us always.

A spiral of Light descends and passes out through the 12 points of our formations and our supporters stand and assist with open hearts and loving minds. Let us communicate now with those many beings that surround us as we understand that we here incarnate beings on the endpoint in a great flow of energy from far off places and we here, now, accept that loving energy through our formations that we might focus in service of our co workers.

Let us invoke the light and love with the Great Devas and we become the chalice of love.

The Devic Prayer

Great Devic Lord hear our prayer. We invoke thy light as it is written, the time of need has come, come forth o Mighty One, bring forth thy fiery wisdom. Join with the Master alike of angels and men. Bring forth the chalice anew. Come forth O Mighty One, enjoin with us on Earth. Pour forth the waters of joy, pour forth the waters of peace, pour forth the waters of healing. Come forth, O Mighty One. We, the children of Earth, invoke O protector and divine Power. Smite the unclean and raise the transmuted ones, we invoke thee now in thy presence and in all thy glory, come forth o Mighty One.

And so we pray to thee, come. And so we invoke thee, come. And so we serve thee, come. Come with thy hordes of light, we implore thee in the name of the One Initiator. Hear our call. The time is here, the testing has begun. We lose our fear and embrace thy love eternal. Alight our our hearts with love.

Come forth now, be amongst us and within us, we who seek to serve, pour forth thy light upon our earth. O Lord of Life, come forth. OM OM OM

So let us visualise our beautiful planet, and we see about it a dark cloud of ancient darkness. And through our formations, a point of fire descends, and descending thus, passes through the vortex and through us. And let us visualise this fire of light and love penetrating the dark cloud of ancient darkness. We beseech the Hierarchy of Light, use us now as thy instrument of peace upon this Burning Ground. Visualise the fire entering this ancient dark thought-form and penetrating thus dissolving and healing as it burns and transmutes this dark web which invades our earth. Let us free those souls who play with it thus, burning away their connection where love should be.

Let us now tarry awhile as the Master approaches.

I seek the way I yearn to know visions I see and fleeting deep impressions behind the portal on the other side lies that which I call home, for the circle has been well-nigh trod and the end approaches the beginning. I seek the way, all ways my feet have trod. The way of fire calls me with fierce appeal. Naught in me seeks the way of peace, naught in me yearns for earth. Let the fire rage, let the flames devour, let all the dross be burned, and let me enter through that gate and tread the way of fire. OM OM OM

Master, use our formations for Light, accept our fiery triangles into thy chalice. We invoke thee from the depths of our Souls, heal our earth this day. And the fire burns and transmutes and separates into many pieces. As we visualise the Burning Ground of love slowly, we transform the thought-form into Light, and we are conscious cooperators with Hierarchy. Now let us pour forth the waters of healing, healing of souls, and we invoke the angels of healing to accept into their loving embrace those souls transitioning at this time. And we invoke peace for our earth, for every being therein, peace and love and healing.

Great Hierarchy of Light, use our formations as instruments of thy healing. Let the waters of Aquarius pour forth, not just this day but forever, and may our leadership be touched by compassion and love, and may thy hand touch the hearts of all. The purpose of my soul must show itself through burning, that which obstructs and hinders must disappear before the power of God. That power am I.

I, therefore, tread the way unto the Burning Ground; there, hindrances disappear. My will is one with the Great Will of God. That will is mine today upon the planes of earth. It leads to service and my masters group. I, therefore, tread the way of service after the Festival of Burning. I dedicate myself to the purpose of the Plan, I have no purpose but the Will of God. I seek no other way but the way of divine fulfilment. I lose myself within the group which seeks the furtherance of the Plan.

Become one with our purpose, dear friends, as we walk the way with the World Teacher, and in whose service we aspire to be a lighted-way for others, and the waters pour forth from the vessel of Aquarius bringing succour to the world of human-kind. And when we leave this place, let us take our ashramic duty and love in our daily lives and in our Triangles of Fire lest we forget our purpose on earth is to be the representation of the externalisation of our Hierarchy. These are not idle words, these are a living Fire, let it become thus.

I will now recite the World Teacher invocation. Join with me, deep within your hearts and souls as we touch the hem of the Lord of Light and we bring forth the Power and the Light and the Love that stretches forth from Shambala through our beloved Hierarchy and the New Group of World Servers to the incarnate world. The Hierarchy are very close to us and hear our soul-yearning, and in humbleness I throw my soul into the fire of service, accept my humble offering, Lord of Light.

The World Teacher Invocation

Great Lord of Light, hear our prayer. We before thee, come to offer service, we before thee come to offer supplication, we before thee, offer all that we are. We invoke thee and thy hosts of Light. We beseech thee to hear our call, we offer thee our lines of intent. From out of the world of Mankind doth come the call; come aid us in our hour of need, come lead us to thy Holy Fire, come heal our broken world. As it has been written, so shall it be. Great Lord, command our souls in thy Army of Light, we place before thee our all. We, thy vanguard, have eyes half shut. Awaken us, wherever we may be, let us sleep no more. Let light enter and darkness be gone. Great Teacher, hear our supplication, come again into our hearts that we may know thy wonder. We invoke thee, in all thy power and love. Lord of Compassion, pour upon us the healing balm that we may be whole once more. Great Lord, we touch the hem of thy garment that we may be at one with thy divine purpose. Let us this day and forevermore. Lord, let us become a channel for thy love, let us smite the darkness and let in thy glory. Great Lord of Light, hear our prayer. Where once we were lost, now we are found. Great Lord, we invoke thee.

Dissolution of the Triangles

Before the dissolution of the Twelve-Star, let us regard it for a moment with awe and gratitude, this fiery assemblage of healing Triangles.

And now, beginning with T4, attend to your Triangle. Allow it to detach and rise above the others. Release it and watch as it dissolves and disappears.

T3, please attend to your Triangle. Separate and lift it from the others, those that remain. Witness its dissolution as it slowly disappears.

T2, now follow suit in attending to your Triangle; gently detaching and lifting and allow it to fade from view.

And finally, T1 upon which the Twelve was built, allow your Triangle to rise and dissolve and recede.

And as we in the Twelve step back, we feel the remaining energies receding and disburse to wherever they are needed. We give thanks to all angels, devas, souls, supporters who guided, witnessed and protected this work. We give gratitude to hear and answer the call; the call to serve. Blessed be, Amen.

K O

Closing Prayer

Let us give thanks for the work we have done together today. We are grateful to all the Twelves and all the workers throughout the world for the work they are doing. We are grateful to be part of what we are doing together, with the same purpose. We are grateful to the devas, we are grateful to the enlargement of the Plan, we are grateful to the Mahachohan, the Manu, Bhagavan Krishna, to the great Architect of the Universe. We are grateful to each and every living being who is constantly working toward the development of humanity. We are always grateful for the past, present and future New Group of World Servers. We are always grateful to be a part of the nations who have laid their life, who have sacrificed their lives, for the sake of the welfare of humanity. Let us show our gratitude and love to all the living beings on this planet. OM OM OM

It is clear from this transcript that Twelves work is not for the faint-hearted. As Vita states:

You must be available uninterrupted, undisturbed, and focused (no doorbells, phones, cats, or dogs). You will need silence, a glass of pure water and a mute button on everything. [And] It is essential that none of us impart any of our own prejudice into this process. You may have personal opinions regarding politics, religious or cultural issues – there is no place for them in occult work. If this is a challenge for you, just ask, ‘can I set these aside for now while I work?’ If you feel you cannot undertake this impartially and cannot set aside your personality preferences, then this work is not for you. It can cause some disruption to you in your present incarnation.
